

Date	Stakeholder	Attendees	Location/Method	Topics Discussed	Issues Raised	Action Items
30-Nov-22	DCCEEW	DCCEEW (Tracey Scroop, Eise Hardiker and Gaia McNeil), MLG, RPMGlobal	Meeting	Pre-referral meeting	Presence of Malleefowl	Submission of referral, additional targeted surveys.
23-Mar-23	Local Community	Public	Public comment	Public comment on DCCEEW Referral	Further assessment required	Assessed by Preliminary Documentation
15-Sep-23	DCCEEW	DCCEEW (Sima Bargrizan and Milly Filmer), MLG, RPMGlobal	Meeting	EPBC referral progress meeting	Guidance for Malleefowl, offsets and progression with EPBC referral	Goldfields Malleefowl offsets strategy, surface and groundwater vegetation characterisation, hydrological assessment on the potential of contaminants, surface and flood modelling, hydrogeological model, information on Lake Goongarrie and impacts of extreme weather events causing water table level fluctuations that intersect pit floors.
19-Sep-23	DMIRS	DMIRS (Hannah Sumner and Felicity Hart), MLG, RPMGlobal	Meetings, email communication and formal correspondence as required for West Australian state approvals and mining tenure applications.	Progress of the Project	DMIRS raised the issue of the proposed DBCA reserve sites.	Correspondance with DBCA regarding the proposed reserve sites, DMIRS recommended to provide benchmarking in the preliminary documentation and use revegetation examples and the implementation of a monitoring plan to provide evidence that rehabilitation has been successful on the other MLG sites.
28-Sep-23	DBCA	DBCA (Tegan Payne), MLG, RPMGlobal	Email Communication	Proposed reserves on site, baseline studies and potential offsets for Malleefowl.	Reserves on the Project area, potential offsets for Malleefowl in the goldfields region.	DBCA recommended that rehabilitation works should be undertaken and completed to a standard consistent with local land uses, landscapes, and ecological values and avoids significant long-term detrimental impacts so that it is still suitable for inclusion into the reserve.
14-Nov-23	Great Victoria Desert Biodiversity Trust	RPMGlobal, MLG, Ian Anderson (GVDBT), Garry Middle (GVDBT)	Meeting	Offset Proposal meeting for potential offset projects for Malleefowl	Potential offset projects for the Malleefowl including establishing feral-free conservation areas and involving traditional owners to benefit the Malleefowl species	Suitable Projects to suit Malleefowl offsets, it was agreed that further discussion was required together and with DCCEEW to determine a suitable offset strategy.
4-Jul-24	DCCEEW	DCCEEW (Sima Bargrizan), MLG, RPMGlobal	Meeting	EPBC referral offsets meeting	Guidance for suitable offsets and progression with EPBC referral	Continue with EPBC referral progress with justification of proposed offsets and define the suitability of the offset for the Project.
Various	Jeedamya Pastoral Station Leaseholder		Ongoing email and phone communication	Proposed Action Update	None	None
